35/4 square meters by 7/2 meters

Answer 1
Answer: Area = 35/4 m²

Length = 7/2 m

Area = length * width

35/4 = 7/2 * width

7/2 * width = 35/4

width = 35/4 ÷ 7/2

width = 35/4 × 2/7 = 5/2

Width = 5/2 m
